

SYDNEY EAST JOINT REGIONAL PLANNING PANEL

Meeting held at Christies Conference Centre on Thursday 5 May 2016 at 5.00 pm

Panel Members: John Roseth (chair), David Furlong, Sue Francis, Michel Reymond
and Melissa Clare

Apologies: None - Declarations of Interest: None

Determination and Statement of Reasons

2015SYE096 – North Sydney - 260/15 - Berrys Bay Marina: Partial demolition and adaptive reuse of existing development and construction of an 84 berth marina, sewage pump out facilities, dry stack boat storage, adaptive reuse of two storey building and construction of two new buildings containing caretaker's apartment, yacht club, kiosk and non-residential tenancies, launch area for small craft, parking for 120 cars, landscaping and foreshore access works, and ancillary works and structures such as roads, infrastructure and amenities - Berrys Bay, Balls Head Road, Waverton as described in Schedule 1.

Date of determination: 5 May 2016

Decision:

The panel determined to accept the recommendation of the assessment report to refuse the development application as described in Schedule 1 pursuant to section 80 of the *Environmental Planning and Assessment Act 1979*.

Panel consideration:

The panel considered: the matters listed at item 6 as addressed in the Council Assessment Report, the material listed at item 7 and the material presented at meetings and the matters observed at site inspections listed at item 8 in Schedule 1. The panel adjourned during the meeting to deliberate on the matter and formulate a resolution.

Reasons for the panel decision:

The principal reason for the Panel's decision to refuse the application is the high intensity of the proposed use. The Panel accepts that a decision based on visual impact is subjective and that different minds may reasonably come to different conclusions on it; however, the Panel is unanimous in believing that the amount of marina proposed in this application is too much for the character of the Bay.

The Panel notes that the applicant has sought to amend its application by changing the access to the Dolphin Wharf section to be over water. The council has not accepted the amended application. As a consequence, the Panel could not grant consent without the deletion of the Dolphin Wharf section. However, the lack of access is not the main problem. In the Panel's opinion, the Dolphin Wharf part of the proposal, being in the smallest and most intimate part of the Bay, is also the visually most offensive.

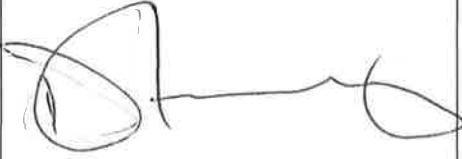

The Panel accepts that, given the long industrial history of Berrys Bay, a marina would be an appropriate use in the main part of the Bay. The Panel accepts also that the application includes significant public benefit in the proposed park and the restoration of Woodley's boatshed. In the Panel's view, the Dolphins Wharf section should be deleted, the main section of the marina should be reduced and the size of boats further limited.

The Panel has considered the applicant's request to approve the proposal subject to conditions, compliance with which would reduce the size of the proposal. However, the Panel does not have sufficient information or advice to formulate conditions that would result in a satisfactory outcome.

SYDNEY EAST JOINT REGIONAL PLANNING PANEL

Conditions: Not applicable
